

Power Inserter

- **Feature**

- Aluminum-alloy die-casted housing with passivation and powder coating.
- Stainless steel closure bolts.
- Good EMC (Electro Magnetic Compatibility) capacity.
- Stainless clamp for strand mount.
- 60VAC and 15Amps current passing.

- **Specifications**

Item	PI-15B Power Inserter	
Frequency Range (MHz)	5~750	750~1000
RF-RF Insertion Loss(dB)	≤0.6	≤1.0
60VAC-RF Isolation (dB)	≥50	
Return Loss (dB)	≥18	
Current Capability (Amps)	15	
HUM Modulation (dB)	≥66dB @ 15Amps
